

I, (parent) _____, wish to use the SOOJ Childcare room area.

My children using the childcare room are: (List names & ages)

In order to make the childcare room a success I agree to the following rules:

1. I will **never** leave my child unattended in the childcare room for any reason. I, a spouse or a trusted friend will always be present to watch my child. **I understand that this is NOT a babysitting service.**
2. If I choose to have a sibling watch my child, I certify that the sibling is 12 years or older and is **responsible** enough to care for the young child.
3. I understand that this childcare room is for children ages 5 and under. I will monitor the toys my child chooses to play with for age appropriateness.
4. I will **discipline my child** when he/she is out of control. If my child physically hurts another child I will remove my child and not return until I know that my child can play without hurting others around him/her. I will apologize when needed and maintain a respectful relationship with all of the parents and children in the childcare room area.
5. If I see a child who appears out of control and in need of correction or re-direction I will **go directly to the parent or caregiver** in the room and ask them to help the child regain control. **I will not to pass judgment on the parent, complain or gossip about the situation.** I will, again, be respectful of the various parenting techniques and the unique personalities of the children, always remembering that I am following the example of my Messiah.
6. I understand that the following misbehaviors will not be permitted and if my child engages in any of the following I will remove my child and not return him/her until the behavior ceases. If a behavior continues, I will not bring my child to the childcare room. **Swearing, hitting, biting, spitting, throwing toys and over aggressiveness are not acceptable!**
7. In the event that there is a discipline problem that cannot be peacefully resolved between two parents I agree that the childcare room organizer has the authority to render a final decision on how to solve the problem. **I will accept & cooperate with the decision to end the problem.**
8. I agree to not bring a **sick** child to the childcare room play area.
9. I understand this area is equipped to allow me to listen and view the events in the main hall. I will respect the right of other parents to take part in the events by keeping **conversations low and to a minimum.**
10. **I understand that SOOJ allows parents to utilize a childcare room but this childcare room is organized & operated by parents and not run by SOOJ Staff.**

As a parent I will abide by all of these rules and help to make this play area a useful and beneficial place for all children and their parents.
